

I am a mother of five, KLOVE is a blessing to my family. So much of the other radio shows are not family oriented in any way, so much vulgarity and implication. KLOVE has been an absolute positive in our home, I do not know any alternatives in broadcasting that offers so much in the way of spiritual and family oriented programming. I know my family has not been the only one impacted by their uplifting gift, bumper stickers are everywhere. It has been a god send, to lose it would be a monumental loss. Our only other choice would be to stop listening to radio altogether. Please save KLOVE and do not allow LPFM to interrupt our lifeline to a positive life.
